6 PORTRAITS BY ANNA TSVELL PAINTED APRIL 2020 - SEPTEMBER 2020, PORTRAITS ABOUT LIFE AND INSPIRATION

«When the quarantine began in March 2020 I decided to paint the series of artworks that will capture my feelings and emotions during that strange period of our lives.

I didn't want to paint about the virus, I didn't want to paint the fear or anxiety that's why I decided to paint the life - the most valuable thing we all have. I started to paint portraits of gorgeous women who inspired me at the different moments of my life and who are still inspiring me every day, the first portrait was born in April 2020. All these portraits were created in 2020 except the only one - portrait of Susie Cave, it was painted by me in 2017 in Los Angeles and edited with dots in 2020. It took me so long to paint these 6 portraits because I wanted to do it slowly and thoughtfully enjoying every dot and brush stroke using the best Winsor & Newton art materials, putting a piece of my soul in each portrait.

This portrait series is my personal celebration of life and I am happy that you come virtually and share it with me».
